**TOYOTA GENUINE ACCESSORIES COME WITH OUR TOYOTA WARRANTY\***

† Current navigation mapping database encompasses major capital and primary national road networks, as well as offering some coverage in regional areas.

^ The Bluetooth® word mark is owned by Bluetooth SIG, Inc. Bluetooth® will only operate with telephones enabled with compatible Bluetooth® wireless technology (HFP (Hands Free Profile) v1.0 or later and OPP (Object Push Profile) v1.1 or later international standards). OPP functionality only works on satellite navigation equipment.

# Available on selected models where AUX-In option is part of audio unit. Suits iPod® models that have a dock connector. Refer to your Apple iPod® Instruction Manual. iPod® is a registered trademark of Apple Inc. This accessory is not a Toyota Genuine Accessory (supplier branded) and is warranted for 12 months from the date of purchase. This warranty is additional to the implied warranties under the Trade Practices Act 1974.

\* All Toyota Genuine Accessories purchased and fitted to a Toyota by an authorised Toyota Dealer are warranted for the remainder of the New Vehicle Warranty or 12 months, whichever is greater. Toyota Genuine Accessories purchased from an authorised Toyota Dealer over the counter are warranted from the date of purchase for 12 months. Conditions apply. All warranties are additional to the implied warranties under the Trade Practices Act 1974.

**IMPORTANT NOTICE:** Some Toyota Genuine Accessories are not applicable to all models/grades. Visit [accessories.toyota.com.au](http://accessories.toyota.com.au) for details on warranty and which Accessories are suitable for your vehicle. Pictured accessories are sold separately. Accessory colours shown may vary from actual colour due to the printing process. Certain accessories when fitted will require the removal of standard equipment. Standard equipment may be retained by Toyota.

TOYOTA GENUINE SATELLITE NAVIGATION

*finding my way home...*

## Find your way, lose your directory

Toyota's Satellite Navigation System<sup>†</sup> is a combination of CD, mp3, radio and Bluetooth<sup>®</sup> technologies rolled into one sleek, intelligent unit. It offers up to three routes for every destination and a choice of voices to guide you along the path you've chosen. And thanks to speed-tracking technology, Toyota Satellite Navigation knows where you are even when you're out of satellite range, such as in a tunnel.

## Plan ahead, call ahead

Along the way, you can find any of 380,000 points of interest listed within the system including restaurants, car parks and sports centres, and call them direct with the touch of the screen.

## On or off-road, it's all the same to us

If you're heading off the beaten track this Satellite Navigation system will help you find your way back with 'bread crumbing' technology that tracks your position through latitude and longitude. The large 7" touch screen also helps you find your way around easily with big 'buttons' and a tilt function to reduce glare.

## Hands free, worry free

Thanks to Bluetooth<sup>®</sup> and a microphone integrated into the vehicle you keep your hands on the wheel and your compatible mobile in your pocket while still allowing instant communication. For even greater convenience, you can upload your mobile's phone book for touch screen dialling.

## From mp3 compatibility to personalised settings

And when you're not catching up with friends you can catch up on your music thanks to a four CD changer with mp3 compatibility. Switch between mp3, the optional auxiliary input, CD or radio and it will remember your preferred bass and treble settings and adjust them accordingly. All of which adds up to a more relaxed, enjoyable experience thanks to Toyota Satellite Navigation.

## Audio Cable and Car Charger for iPod<sup>®</sup>#

The Satellite Navigation Audio System features optional auxiliary input that allows you to plug your iPod<sup>®</sup>, or most other portable devices, in to the vehicle's sound system. Better still, simply connect the Audio Cable and Car Charger for iPod<sup>®</sup># (available from Toyota) and you're good to go, while its built-in charger also ensures power levels stay as high as your enjoyment.

## One unit, a host of uses

From the most basic of functions such as AM/FM radio to an in-unit calendar that can remind you of friends' birthdays and important business meetings, Toyota's Satellite Navigation System is brilliantly useful. It even features a Maintenance Reminder to let you know when scheduled servicing, wheel alignments and battery checks, to name but a few, are due. If ever there were a unit to make life easier, this is it.

7" screen makes map reading easy

Split screen helps highlight alternate routes

Rear view camera compatibility (camera sold separately)
